1. INTRODUCTION

The 2022/23 Service Delivery and Budget Implementation Plan (SDBIP) entrusts Dr. Kenneth Kaunda District Municipality to ensure that the district delivers on objectives and targets which are aligned with the Integrated Development Plan (IDP) and budget (both capital and operational).

The SDBIP is essentially the management and implementation tool which sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services and the inputs and financial resources to be used. The SDBIP indicates the responsibilities and outputs for each of the senior managers in the top management team, the inputs to be used, and the time deadlines for each output.

The SDBIP is also a vital monitoring tool for the mayor and council to monitor in-year performance of the municipal manager and for the municipal manager to monitor the performance of all managers in the municipality within the financial year. The SDBIP also serves as a contract between the administration, council and community, expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months. The figure below provides the basis for measuring performance in service delivery against end-of-year targets and implementing the budget.

2. COMPONENTS OF SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

1. Monthly projections of revenue to be collected for each source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Ward information for expenditure and service delivery
5. Detailed capital works plan broken down by ward over three years

2.1. Reporting on SDBIP

This section covers reporting on the SDBIP as a way of linking the SDBIP with the oversight and monitoring operations of the Municipal administration. Various reporting requirements are outlined in the MFMA. Both the Executive Mayor and the Accounting Officer have clear roles to play in preparing and presenting these reports. The SDBIP provides an excellent basis for generating the reports for which MFMA requires. The reports then allow the Dr. Kenneth Kaunda District Council to monitor the implementation of service delivery programs and initiatives across the District.

2.1.1. Monthly Reporting

Section 71 of the MFMA stipulates that reporting on actual revenue targets and spending against the budget should occur on a monthly basis. This reporting must be conducted by the accounting officer of a municipality no later than 10 working days, after the end of each month. Reporting must include the following:

Actual revenue, per source;

- I. Actual borrowings;
- II. Actual expenditure, per vote;
- III. Actual capital expenditure, per vote;
- IV. The amount of any allocations received

If necessary, explanation of the following must be included in the monthly reports: (a) any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote (b) any material variances from the service delivery and budget implementation plan and; (c) any remedial or corrective steps taken or to be taken to ensure that the projected revenue and expenditure remain within the municipalities approved budget.

2.1.2. Quarterly Reporting

Section 52 (d) of the MFMA compels the mayor to submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP form the basis for the mayor's quarterly report.

2.1.3. Mid-year Reporting

Section 72 (1) (a) of the MFMA outlines the requirements for mid-year budget and performance assessment reporting. The accounting officer is required by the 25th January of each year to assess the performance of the municipality during the first half of the year taking into account:

- (i) The monthly statements referred to in section 71 of the first half of the year
- (ii) the municipalities service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- (iii) The past year's annual report, and progress on resolving problems identified in the annual report; and
- (iv) The performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities.

Based on the outcomes of the mid-year budget and performance assessment report, an adjustments budget may be tabled if actual revenue or expenditure amounts are materially different from the projections contained in the budget or the SDBIP.

2.1.4. Annual Performance Reporting

In terms of Municipal Systems Act No. 32 of 2000, Section 46 requires municipality to prepare for each financial year a performance report reflecting:

- (a) The performance of the municipality and of each external service provider during that financial year
- (b) A comparison of the performances referred to in paragraph (a) with the targets set for and performances in previous financial year; and
- (c) Measures taken to improve performance

The annual performance report must form part of the municipality's annual report in terms of Chapter 12 of the Municipal Financial Management Act.
